ASSEMBLY INSTRUCTIONS

1. Print both pages of this template on matte photo paper or card stock.
2. Use a thin layer of white glue for gluing.
3. For nice clean folds, score dashed fold lines by very lightly running an x-acto knife along a straight edge.
4. Carefully cut out all parts. Be sure to cut the black lines on the STAR pieces.
5. Glue tab A to form HEAD cone. Make sure the point on top is nice and sharp.
6. Glue tab B around to form BODY and fold feet up.
7. Glue ears to HEAD were marked.
8. Fold tabs marked E down and out from BODY. Put glue on white side of tabs and slip HEAD over BODY to attach. Make sure to try and get the point of the hat as straight up as possible.
9. Glue tab F to form HAT TRIM.
10. Fold tabs G on HAT TRIM inside and place a little glue on each tab.
11. Slide HAT TRIM, with tabs down and in, down over HEAD to the edge of the hat where the red meets the white and let it glue in place.
12. Glue the two sides of STAR A front to back, so cut lines line up and fold blue tabs out a bit.
13. Repeat for STAR B.
14. Slide cut on STAR A into STAR B to form STAR.
15. Fold snow flakes front to back and glue.
16. Use fold key to fold snow folds the correct direction to form a point in the middle.
17. Use little blue tabs on STAR to glue it to the top of the SNOW.
18. Place Snow balanced on point of hat. Lightly blow snow flakes to make them spin.
19. Be sure to check out my Kickstarter project Kooky Creeps ending mid January 2014.
